

## **A Message from our Mayor on the Current State of Emergency**

Here we are in the middle of a national pandemic. Schools have moved to home education using the Internet. Applications like Zoom have become common place and part of our daily world. We are working from home if we can and our new heroes are grocery workers, our medical professionals and as always our first responders.

So many things we experience are all new from buying groceries, finding and getting prescriptions, staying socially separated, using masks and washing our hands dozens of times each day.

We all long for December again and the Holiday Season, things were normal then.

Stay strong, stay at home, exercise, look after others, call your neighbors, friends and family.

This will pass.

If you are in need of help reach out to the Borough during our business hours (Monday thru Friday, 9 am to 3 pm) at (732) 270-6415.

We will do our best to help you solve the issue.

E. Steven Doyle  
Mayor
